INSTRUCTION MANUAL

Connecting Camera to a TV or VCR

1. Attach the mounting bracket to the camera
2. Mount the camera to the desired location. Note: Do not place camera in a location subject to direct sunlight. Do not aim camera directly into the sun.
3. Run both 100 ft extension cable to the television (or VCR) which you will use for viewing camera location.
4. Attach the yellow video plug in the Video 'IN' jack of the Television
5. Connect the supplied 12Volt AC power supply to the Red power plug
6. Turn your television (or VCR) to auxiliary (AUX) or video mode to view camera.
7. Focus camera by removing the front part of the waterproof housing and slowly turning the lens to optimum clarity. When focused replace the front part of the waterproof housing.
