

Supported Insteon Devices

Once Harmony is connected with Insteon, compatible LED bulbs, plug-in devices, wall switches, wall outlets and sensors will be displayed within the Harmony app or on your touch screen remote. Sensors may display open/close status, motion and water leaks. Thermostats, cameras, locks and the smoke bridge are not supported.

Connecting Harmony hub with Insteon during Harmony setup

Before configuring your Harmony Home product to work with Insteon, first set up your Insteon Hub using the Insteon app and create an Insteon account. Then, on the **Add Devices** screen during initial Harmony hub setup:

1. Tap the > sign next to Insteon in the list of home control devices
2. Follow the instructions to sign in to your Insteon account
3. Once connected successfully, Harmony app will return to the Add Devices screen and continue setup

Adding Insteon after Harmony hub has been set up

Before you begin to connect Insteon with your Harmony solution, first follow the Insteon instructions to set up your Insteon solution. Then follow the steps below to connect your Harmony hub with Insteon:

1. Launch the Harmony app from your mobile device
2. Tap the menu icon
3. Select **HARMONY SETUP** and then select **ADD/EDIT DEVICES & ACTIVITIES**
4. Select **DEVICES** and then tap **ADD DEVICE** at the bottom of the screen
5. Select **HOME CONTROL** and tap Insteon
6. Follow the on screen instructions to pair and sign in to your Insteon account
